Specialists in Pediatric and Adult Allergy, Asthma, and Sinus Disease

Arthur F. Fost, M.D. • David A. Fost, M.D. • Antonio A. de la Cruz, M.D. • Satya D. Narisety, M.D.

Patch Testing Information and Authorization Form

It is recommended that if you are scheduled for patch testing, you should call your insurance plan before the test to verify the benefit coverage on this procedure. The coding used for patch testing is 95044 and routinely 80 patches are applied. We use Allergeaze Contact Allergen Test Panels.

Some insurance plans have limited allergy coverage and are Basic and Essential plans. In this case, your coinsurance or non-covered service amount could be substantial and you will be responsible to pay that amount assigned to you by your plan.

If your plan coverage requires a copay or referral to see a specialist you will need to provide these for each visit.

*We ask that you call to confirm your patch application appointment the day before you are scheduled. The preparation for the test is both time consuming and expensive. In the event you are scheduled for this test and you do not show up for your appointment, **you will be charged \$ 300.00.** This fee is to cover the cost of the test materials that were prepared especially for you.*

Once the patches are applied, do not get your back wet. This would remove the markings on your back and also dislodge some of the patches. Our nurses will give you detailed instructions when the patches are applied.

We hope that these reminders will be helpful to you. If you have any questions feel free to call us @ 973-857-0330.
